

Brill's Scholarly Editions

Brill's research environment allowing easy access to authoritative text editions, commentaries, and translations of ancient works, fragments, papyri, and inscriptions.

Brill's Scholarly Editions is for scholars

- **Read** - read original texts, translations and commentaries side-by-side in a sleek and simple environment
- **Learn** - Translations, commentaries, and widgets help you gain a deeper understanding of the text and the current state of scholarship
- **Cite** - Stable identifiers help you cite the texts, down to the individual phrases and words

Brill's Scholarly Editions is open-ended

A library and reading environment for texts in both their original languages and in translation is ready to be explored. New features are being released every few months.

Brill's Scholarly Editions is collaborative

This is not just a site. It is part of an ecosystem of software used for building rich reading environments, with a responsive design suited for all devices: desktops, laptops, tablets and mobile phones.

Brill's Scholarly Editions is sustainable

Text editions, translations, and commentaries will be published that

- are peer reviewed
- are in sustainable formats
- provide stable identifiers
- have a long-term home at Brill as well as on separate institutional repositories
- are made accessible in an environment of which the code is available under open licensing for third-party redistribution and/or further development
